# Say **NO!**

## To **2500** Homes On Local Greenspaces

**Why? You can help prevent this and Say **NO!****

- A dramatic increase in traffic (and associated pollution) that West Berkshire Council acknowledge will cause disruption on local roads.
- Additional pressure on local infrastructure and doctors surgeries.
- Destroying countryside and causing irreversible damage to the landscape and wildlife habitat.
- Increased risk of flooding to the residents of Thatcham.
- Light pollution that would adversely affect nocturnal species.
- West Berkshire Council have alternatives - they need to think again.
